

Extend your reach.

Extend the wireless communication range between the Pro24.z remote control and the ProLink.z processor using the Pro.rfz Wireless Range Extender.

The Pro.rfz extends the two-way link between the ProLink.z processor and Pro24.z remote, providing reliable control and feedback to the remote for information such as song metadata, volume level, lighting control, and more.

In larger installations, multiple Pro.rfz wireless range extenders can be added by simply powering each from an electrical outlet. The devices will then create a reliable wireless network that instantly adapts to the surroundings to keep the communication path open and reliable. A detachable wall-mount bracket makes for a clean and easy installation.

SPECIFICATIONS

Power	+5VDC, 1A (Power Supply Included, 6ft)
RF Control	Bi-directional ZigBee (2.4 GHz)
Integrated Antenna	Yes
Extends RF Range	Up to 70 ft
Micro USB Port	Programming & Power Port (USB cable included)
Mounting	Detachable wall bracket (included)
Enclosure	Durable plastic
Indicator lights	Power & 2.4 GHz ZigBee Communication Link
Processor compatibility	ProLink.z only
Multiple Pro.rfz units may be used	Yes
Dimensions H x W x D	5" x 3.4" x 1.1" (127mm x 86mm x 28mm)
Warranty	3 years (parts & labor)
