

Comprehensive system control.

The ultimate Pro Control processor delivers complete control over your environment when partnered with the Pro24.z and iPro.8 remotes. Designed to command even the most complex electronic systems, the ProLink.z boasts

a formidable array of control options, including bi-directional control and monitoring of devices via the Pro24.z and iPro.8 remote controllers.

In addition to two voltage-sensing inputs for improved management of connected devices, it features six IR output ports, an integrated 2.4 GHz Zigbee® antenna, Ethernet port for network control of a virtually unlimited number of devices, and two 2-way RS-232 ports.

The ProLink.z also integrates seamlessly with tablets, smartphones and PCs with an activated ProPanel app from iTunes®, and is fully customizable via the Pro Control wizard-based Pro Control Studio software.

Compatible with both the Pro24.z (left) and iPro.8 (right) remote controllers.

SPECIFICATIONS

Supported remote control	Pro24.z and iPro.8
Support for iPad®, iPhone®, iPod touch® app	Yes, WAN
Support for virtual PC control	Yes, WAN
Support for 2-way feedback from compatible device	Yes
Integrated RS-232 ports	2
Ethernet control	Yes
Ethernet for programming	Yes
Adjustable IR output strength	Yes
Integrated IR routing ports	6
Voltage sense inputs	2
Integrated RF control	Bi-directional Zigbee (2.4 GHz)
System commands and macro storage	Unlimited (Limited only by available memory)
Integrated antenna	Yes
USB programming	Yes
Dimensions H x W x D	4.1" x 9.49" x 1.28" (104mm x 241mm x 32.5mm)
Warranty	3 years (parts & labor)
